GENERAL TRADING 

GENERAL CONTRACTING 

## WATER WELL DRILLING

SSMA provides ground water solutions to all water problems. Our track record spans more than three decades in developing water resources, designing and constructing water supply facilities even in areas where sufficient water resources are hard to find or where they are threatened by pollution or saltwater intrusion.

## GENERAL ACTIVITIES

General Trading (Import & Export)  
General Contracting & Sub-Contracting  
Water Wells Drilling  
Drilling Petroleum Exploration Wells  
Rent Heavy Duty Equipment & Drilling Rigs  
Transportation

### GENERAL TRADING SECTION

Our General Trading Section activities is taking care of all our company general duties, planning & programming for import & export and got its own branch and stuff management, well-furnished and well organized with all its requirements.

#### We Import

Agricultural Machineries, Equipment & Spare parts  
Transportation Equipment & Spare parts.  
Drilling Tools  
Drilling Pipes, Casing Pipe  
Solar Panels  
Diesel Engines  
Agricultural Pump Water  
Drilling Rig of Artesian Wells  
Sale of Drilling Equipment  
DTH Hammer & Bit  
Drilling Foam  
Bontnait

#### We Export

(To our neighbour countries' markets)  
Several Raw Materials Items as required  
Fresh Agriculture Vegetables  
Fresh Fishes

We can offer a range of deepwell drilling options using closed circulation biodegradable polymer mud flush, simultaneous drilling and casing systems or alternatively with one of our heavy duty percussion rigs. Wellpoint dewatering systems offer simple, reliable and effective solutions to ground water problems during excavations by temporarily lowering ground water levels

### GENERAL CONTRACTING AND SUB-CONTRACTING

Our company's general contracting & Sub-Contracting got its own qualified & very well experienced managements, administration and staff as well as men power & Civil engineers.

Our company participated in several general contracting & sub-contracting tenders requested by both government sources & non-government sources. We participated in the past period in several tenders projects estimated about 842 projects been completed and finished and handed over within time without time delay and according the agreement terms & conditions by turnkey bases successfully and in best condition without facing any working problems during working performance.

### CONTRACTING ACTIVITIES

- ☑ Roads Construction & All civil works requirements
- ☑ Housing & Schools buildings & maintenance.  
Roads & Desert lands levelling
- ☑ Camps and compounds or projects sites preparation
- ☑ Watering & Rolling compounds roads & Gravel supply

In line with our commitment to quality, our products are blended using highly refined, imported base oil and available in different grades to meet different performance levels. Total customer satisfaction is our aim.

The competitive prices, reliable performance and high quality of our products have won us an impressive clientele base, both locally and internationally. The company focused in overseas market and have strong sales network in Asia Pacific. In YEMEN we currently supply a wide range of products to OEM brands. We have also done contractual supply to the Malaysian Government Sector. All our products and services come with a solid reputation built on years of experience, expertise and customer focus.

If and in case we successes in any bid or even for any another requirements or procurements request from our customer.

Our Bankers full Name: CAC Bank

Address: Al-qiada st. Branch

Account No. \_\_\_\_\_

Our Bank Account Name: Yemen construction & development bank

Account No. 1387

## LIST FOR COMPANY MEN POWER

S. No.	Name	Position	Education	Experience In Drilling
1	Mr. Wayel Saleh Al-Abragi	Drilling Manager	University	10 Years
2	Mr. Kalid Saleh AL-Abragi	Technical Engineer	University	15 Years
3	Mr. Hussein Ahmad Jaber	Maintenance	Secondary	20 Year
4	Mr. Abdo Mogbel	Safety man	Secondary	10 year
5	Mr. Aser Saleh	Petroleum engineer	University	5 year
6	Muath saleh	Mechatronics engineer	University	4 Years
7	Mr. Basher Hussein Abdulla	Wilder	Secondary	5 Years
8	Mr. Haitham Saleh	Labor	Preparatory	5Years
9	Mr. Abdal Hakeem Ahmad	Labor	Preparatory	5 Years

## ABOUT US

SSMA was founded in France in 1981 by SALEH SALEH MOHSEN AL-ABRAQI. From our beginnings as a family-owned business, our commitment to high-quality, safe products enabled us to develop an understanding of gelatin and related ingredients — both operationally and technologically - that is unparalleled throughout the world. Today, our company offers the widest range of product and services in The Middle East.

### CHAIRMAN'S MESSAGE

Looking back on my life as The SSMA marks its 40th anniversary, I spent the majority of my best years absorbed in combination lock R&D, production, and marketing, devoted to building, **THE SALEH MOHSEN FOUNDATION** into a global combination in different fields committed to innovation and fully supported by the efforts of colleagues and vendors, we have continued to grow and improve through product development and organizational reform efforts. We are gratified and proud of these accomplishments. From the time I founded this business I was eager to take part in research and development. This desire comes from my background in mechanical and aerospace engineering research, which instilled in me the core belief that creativity is essential to success.

In spite of multiple global economic crises over the past decade or two **THE SALEH MOHSEN FOUNDATION** research and development budget has only increased over time, never decreasing for the long term our company successfully transgressed all hardship and our team become the best in the Middle East market,

I would like to send my greetings for all employees, clients and our dealer.

**Wish you more of the great job.**

## MR. ASER SALEH

General Manager

SSMA Corporation for Water Services was established with the specific purpose of carrying out upstream and downstream operations Yemen; the company has a group of highly qualified and experienced engineers in the oil and water fields internationally and locally for many years.

The goal of the company is to provide the hydro oil sector with the necessary skills with the necessary expertise and technologies to enhance the volume of production significantly and regularly through drilling operations and service contracts Drilling operations A.F.E. Production Final well or well evaluation and delivery wells and renovation program, Well recorded and evaluated, Coil pipe

### OPERATIONS
